An awful parody on a game long time forgotten. Lazy programming, non-existent gameplay, dull sounds. Music is okay, though.

Is it worth trying out? No.. best romantic novel game i ever play...

my simple review

i like about this game is....your goal is seduce elisa but some of the maids are seducing YOU..in their ways like their attitude towards you is attracting differently. Biggest complaint: the checkpoints aren't closer together. Soundtrack was tight. But I cannot progress past this one point. (And, frankly, I've grown a little weary of the repetitiveness granted by my lack of progression.). HOW DO U REFUND. Wow this is some good quality DLC and for a very good price (£35.99). Cant fault it and I wish all the DLC was like this. For the price of a sandwich and a drink you can get hours of entertainment from the route and its locos. Simliar DLC can set you back 30 quid.. I've watched JourneyQuest for the first time years ago, and I instantly fell in love with it. At first glance it's merely an extremely well written fantasy/comedy series. Pay attention however, and you'll notice an incredible attention to detail in the world building and the acting. The first season is a bit short and not quite as epic as the second one, but it's still incredible. Strongly recommended to anyone who likes fantasy.. I thought i was a fast typer untill i played multiplayer against Bobbie.... This ia good game . but i cant ffind the 2d Map ?? This game is Zombies Test.. well this is my first review and THIS GAME earns IT lol

If you LIKE Zombie survial games GET THIS!!!!

it is pretty hard, and SOOOOOO much FUN.

I only played solo but it would be even more of a amazing experience with friends or others.

There is tons of zombies everywhere.

You can host your own game and change all the modifiers which makes the play experience even better.

When it is Nlght HIDEEEEEEE lol

I dunno JUST GET IT GUYS,just soo much fun for a cheap game in Early stages of Deveploment,you wont regret it!hit me up also if you wanna group or make some sort of a clan etc?? I feel it is how a zombie survial should be.Hopefully DEVS bring some sort of building at a later point.

SOOOOOOOOOOOOOO bottom line get it!!Great game,you have to think fast.smart.kill.loot and RUNNNNNNNNNNN lol there's not just 1 zombie around every few minutes or your wondering ummmm is this a zombie game??where are they??? You will find them everywhere in this game !lol

Just started playing it. Wish the graphic were better at least get rid of the obvious texture tiling. Game is fun though got me hooked.. Most of the reviews are correct. It crashes. Fortunately, it seems that I have found a solution to this problem. Just save the game at the beginning of the game, and save more later. It works for me. I do hope that it will work for you.. The only thing that I dislike about this game is the saving process is a bit iffy and it crashes a lot, but that's just because it's on early access.. I hate this game very much I regret spending money on this game i am filled with such hatred at these endings. I feel like i have been putting my\u2665\u2665\u2665\u2665\u2665in a blender for the past 5 hours its just pain, theres no good ending just bittersweet and its not even good bittersweet like sour patch kids its more like you just ate a \u2665\u2665\u2665\u2665ing lime and theres like 1 grain of sugar in that \u2665\u2665\u2665\u2665. The core gameplay of CS is becoming more and more overshadowed by money-printing minigames with each superfluous DLC they release. The game has drifted away from being a game about zoning and traffic planning and has turned into a series of meticulous, tycoon-style design challenges. It really does not do it for me.
